

Biography Motty Fishman

Motty (Mordechai) Fishman was born in Israel in 1952. After serving with the IDF, moved to the USA in 1975 to pursue academic education - Bachelors of Architecture followed by MBA Finance. Practiced as an Architect and thereafter joined the banking industry, followed by a career involving medical related ventures management and advisory. Presently, residing in sunny Florida with my dear significant other.

Son to Radomsker parents. Mother Chana (Andzia née Ludkiewicz), who survived along with a sister the slave labor camp at Skarżysko-Kamienna. Father Yaakov (Jakub) Fiszman was a glassware manufacturer, the famous "Jasień Huta". The Fiszman family originally from the nearby village of Jasień and later Radomsko.

I discovered "Yiddele' Memory" by accident during a tour in Radomsko in 2014 and immediately connected with Ruchele Kesselman. I am delighted to support her and heartedly appreciate her Jewish Open Air Museum in Radomsko. Importantly, it memorializes the legacy of the destroyed Jewish communities and our families who perished in the Holocaust. But most of all, it shows the Jewish life before WWII in Poland and this is the most important legacy to the next generations. To never forget".

Glad to assist Radomskers and others with interest in said "Kesselman Museum", when you contact me at mottyf@aol.com or via FaceBook Messenger at [motty.fishman](https://www.facebook.com/motty.fishman)
Thank you for your interest.
Motty.
